## CROP TESTING PLAN

Four radio broadcasts dealing with better seed and crop improvement will be given by Mr. H. G. L. Strange, Director of the Crop Testing Plan, as follows:  
Tuesday, Feb. 11th.—The use of rusted and frosted grain for seed.  
Feb. 18th.—The standard varieties of wheat, oats and barley.  
Feb. 25th.—How to buy and use good seed.  
Mar. 3rd.—Cleaning and treating seed—use of the fanning mill.

TIMES OF BROADCASTS:  
CFCX—YORKTON . . . 2.00 to 2.10 p.m.  
CFAC—CALGARY . . . 2.15 to 2.25 p.m.  
CJCA—EDMONTON. . . 1.05 to 1.15 p.m.

## A Former Resident Passes.

Possibly few of the present residents of Stony Plain are aware that an old-time resident of the town passed away and was buried in Edmonton last week. This was Mr. Albert F. Miller. This was the gentleman who, in partnership with Mr. John Ingle, operated the first lumber yard and planing mill here, it being located where the Dannhauser residence now stands, on Meridian road. This firm operated for a few years and then sold out to Cushing Bros. of Edmonton. This firm, in turn, re-sold the business to Armbruster Bros. of which firm Mr. John Armbruster is the surviving member.

After retiring from the lumber business, Mr. Miller returned to farming, and operated a quarter section near Ashcroft station up to the time of his death. He was in his 50th year, and is survived by 6 brothers and 4 sisters. Interment was made in the Edmonton cemetery.

## Good Times Coming.

Altho the Lenten season has practically only begun, arrangements are already under way for a resumption of the dances at Kelly's Hall. A local organization of young ladies has rented this popular place of amusement for Easter Monday, when a dance will be held. This event will be closely followed by another of those popular dances for which our Junior Hockey Club boys have made such an enviable reputation. The boys are now said to have a reserve fund laid by, from the profits of their various entertainments, and it is reported to be only a short time until they will be able to apply this fund on the first instalment on a covered hockey rink, for which all the Hockey Boys have long been wishing.

## A Highly-instructive Show.

The attendance on John Deere Day in Stony Plain was very good, and the talkie-movie given in Kelly's Hall, proved both entertaining and instructive. The feature picture "Sheppard & Son" confined itself to power farming and showed how success may be obtained by the use of this method on the farm. Picture No. 2, "Murphy Delivers the Goods," also proved highly entertaining, and the gentlemen who accompanied the show, were very courteous in explaining and answering the many queries put by the farm-patrons.

## Off the Air on Sundays.

Edmonton Prophetic Bible conference, headed by Premier Aberhart and Hon. E. C. Manning, will leave the use of radio station CJCA between 8 and 9 p.m. on Sunday evenings after March 8, under an order just issued by Canadian Radio Commission. Sunday afternoon broadcasts from Calgary will not be affected. Complaint had been made by radio fans who preferred listening to the Commission's regular program during that hour.

### A Pot Of Gold?

It is said that people learn by experience. True, undoubtedly, but one wonders sometimes just how much experience is needed for some people to learn some lessons.

In illustration one might cite the well established axiom that "there is no royal road to wealth." Experience, reaching back for centuries has amply proved the truth of this assertion but the lessons of the past do not appear to be very deeply engraved on a good many human minds, or if the truth of the statement is admitted and recognized, it is quite frequently ignored or blindly waived aside.

Why is it that so many people are easy to convince, against all the laws of sound economics, in defiance of recorded history and experience, in opposition to their own inherent common sense, that there is a pot of gold at the end of the rainbow to be had merely for the gathering?

Why is it that people of fair education, people who are well read, people who usually apply good sense in the pursuit of their daily avocations and even demonstrate shrewd ability in ordinary business transactions, fall an easy prey to the lure of financial fakirs, confidence tricksters and unscrupulous sharks?

There can be only one answer to these questions and that is that people of ordinary intelligence and acumen who succumb to the wiles of the tricky financial gangster and invest hard earned savings in wild projects and doubtful schemes have permitted blind, unreasoning hope to supplant judgment and common sense. In other words, the desire to get something for nothing or to acquire a great little is allowed to over-ride good sense. The inevitable result of such lapses is disastrous speculation in schemes in which every card is stacked against the player.

And once the victim has allowed himself to be lured into the net by promises of huge returns and great rewards it is astonishing how reluctant he is to admit even to himself that he has been ensnared even after the truth is revealed in unpleasant starkness. The net in which he is caught is made of golden meshes and rather than credit anything else he is ready to believe the most impossible stories and back up his faith by sending good money after bad until he is ultimately strangled.

A remarkable illustration of the operation of this psychological trait was recently unfolded in the expose of the "Drake estate" frauds in the Chicago courts when it was revealed that 70,000 residents of mid-western States had contributed a total of \$1,350,000 to a group who represented they held claims to the Sir Francis Drake estate, consisting of incredible wealth in Great Britain plus title to debts owing the estate in 66 countries of the world with compound interest which had been piling up for 300 years. It was represented that those who would contribute funds to enable the group to settle up the estate would reap a thousandfold on their investment.

Even after the ringleader was sentenced to a ten-year term in jail money continued to roll in to his agents who collected on a commission basis to further their alleged efforts to "collect the estate", evidence in the trial of 41 of these collectors revealed.

Wild stories were told at campaign meetings and, judging from the resultant flow of money, believed. Prospects were told that all the silver and gold in the world really belonged to the estate, which was why the United States began calling in both and why England departed from the gold standard, that when Roosevelt was reported on a fishing trip he was actually in England settling the estate and that the ring leader was not in jail but was waiting to release a secret understanding with the Bank of England, which would start the golden flood pouring across the prairies. One of the prospects is reported to have written the Bank of England, and when told the Drake estate had been settled long ago, "repeated his plaintive query, 'What steps do I take to get my money?'"

It reads like a fairy tale, but it is opportune to point out that but for this one scheme which received a great deal of publicity, there are hundreds of others to which the unsuspecting public is invited to subscribe, about which but not much is heard.

Such appeals are invariably launched on the well-founded assumption that there are still plenty of people gullible enough to part with their money if the bait is made sufficiently glittering in the form of handsome returns at short notice.

Those who are tempted by such blandishments would do well to hesitate before taking the plunge into dubious waters and particularly to be wary of glittering promises of speedy and handsome dividends. Money is not made that way, except by the few who are out to "take the suckers for a ride."

For the average man or woman there is just one reasonably safe way to ensure a competence for old age and that is by the slow and painful route of hard work, thrift and investment of savings in sound securities, remembering that the sounder the security, the smaller will be the returns. Such method requires courage, persistence, self-denial, endurance and intelligence, but it is the only rational way, for there is no royal road to riches.

Numbers had sex in ancient lore, The odd numbers were masculine and the even ones feminine, with the odd numbers having the greater power.

One gratifying accomplishment of religious disputes in Germany is that the Prussian Bible Society sold last year nearly twice as many Bibles as in previous years.

### Smoke Drift Of London

Reports Would Indicate It Travels For Long Distance

That smoke originating in England is being observed in other parts of Europe was reported at the annual conference of the National Smoke Abatement Society in Bristol, England, by Dr. A. G. Ruston of Leeds University. "Smoke from industrial England has been observed," he said, "as far west as Valentia Island, on the West coast of Ireland; the smoke drift of London is frequently seen by air pilots over the Channel and Northern France; a roof fringe on the edge of Coniston Water—derived from Lancashire and the West Riding of Yorkshire—has been photographed; and it has been alleged that the sheep on the Isle of Man turn darker in color when an east wind blows across from Lancashire."

### Learned Too Quickly

Robot Narrowly Missed Killing Its Tutor With Gun

A new trick that he was adding to his mechanical man's repertoire at the Pacific International Exposition in San Diego, California, almost cost the life of Henry C. May, inventor.

May was trying to teach the robot to shoot a revolver. The mechanical man learned more quickly than he anticipated, and shot him in the head. He will recover.

## WAKE UP YOUR LIVER BILE—

And You'll Jump Out of Bed in the Morning Ready to Go

The liver should pour out two pounds of Bile every day. If it doesn't, your food doesn't digest. It just goes to the stomach, like a log in your stomach. You get constipated. Harmful poisons get into the blood and you feel sick, sick and the world looks pink.

A new little "liver" gets at the cause. You need something that works as well as it takes the work out of your liver. Carter's Little Liver Pills to get these two pounds of bile flowing freely. Harmless and gentle, they make the liver work. They are the only pills of color that have no harmful or narcotic in them. Get Carter's Little Liver Pills for same! Stomachily refuse anything else, etc.

### Gift For Noted Pianist

Watch Made Especially For Paderewski Has No Duplicate

Paderewski, the great pianist, is to be presented with a watch which he will know is his. It has just been completed in Warsaw. The timepiece has the hours represented by the letters I. J. Paderewski, a piano keyboard representing the minutes. The hour hand is in the form of a pen, the minute hand like a conductor's baton, the second dial marked with the name of the district in which Paderewski was born, and round the dial are the notes of 12 Paderewski compositions. It is said to keep perfect time.

### Feel Tired? Backache?

FOR young girls growing into womanhood, for women in middle life going through the change, or those who suffer from headache, weakening drains, backache and nervousness, Dr. Pierce's Favorite Prescription is just the valuable tonic needed. Mrs. Robert Bryant of 11 Glenview Ave., Bradford, Ont., said: "What wonderful medicine Dr. Pierce's Favorite Prescription is! I feel it proved so in my case. I felt tired and nervous, and I took it. I felt better back and in my side. Dr. Pierce's Favorite Prescription is the best medicine I ever took. I feel fine, as only a healthy person can."

Buy of your neighborhood druggist today.

### Russia's Communal Kitchens

Preparation Of Food Is Done Entirely By Machinery

Twenty-one million Russians are being fed to-day from communal kitchens. Last year they consumed ten billion dishes! During the past six years the number of persons served from such kitchens has increased by 30 times; and the service is still growing. One kitchen now in course of construction will be capable of preparing 450,000 dishes a day. The preparation of food in these organizations has become so highly mechanized that the food is not touched by human hands during the whole process.

There are more people to the acre in Barbados than on any other spot in the western hemisphere. 2140

The PERFECT Chewing Tobacco

### Birthplace Of King

Was Richmond Park And Not Sandringham As Sometimes Stated

Several writers, mentioning the birthplace of the King, have stated that he first saw the light of day in York Lodge, on the Sandringham Estate. Actually he was born at White Lodge, Richmond Park, then the home of his parents, the Duke and Duchess of York, the Glasgow Herald points out. A few days after his christening the household moved to York Lodge, which was later the birthplace of his brothers and sisters.

### An Unusual Sale

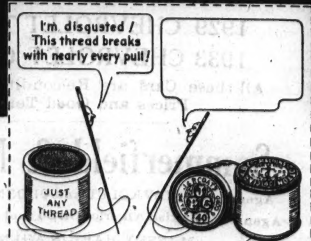

Railway In New Brunswick Brought \$100,000 At Auction

The Tobique Valley railway, running 26 miles from Perth Junction to Plaster Rock, was sold for \$100,000 to S. Ronald Jones and E. B. Harley, Saint John, at a public auction, unique in Canada's history.

In 1897, the year of its completion, the railway was leased to the Canadian Pacific railway for 99 years, and rental from the C.P.R. will be the only source of revenue for the purchasers for the next 60 years.

## \$500 in PRIZES

FOR THE OTHER NEEDLE'S ANSWER

### 272 PRIZES in CASH and MERCHANDISE

2 PRIZES of \$50.00 EACH 250 FANCY SEWING BOXES  
10 PRIZES of \$10.00 EACH and containing an assortment of  
10 PRIZES of \$5.00 EACH Coats' and Clark's Threads.

Think a moment—what would the necessity of Coats' and Clark's 6 cord Spool Cotton Thread—so firm and dependable no matter how fine—so strong and smooth and even. Every woman who sews with them KNOWS! Get an entry blank from your favourite store and jot down what you think the other needle would say of Coats' and Clark's 6 cord Spool Cotton. Send in your entry. You have 272 chances to WIN!

### The 5 Standards of Excellence

1. In COATS' and CLARK'S 6 CORD SPOOL COTTON, 6 Cord Cable Construction makes every thread, however fine, firm and dependable.
2. Strength that holds seams secure through years of use and laundering. There is no starch coating to give only temporary strength which vanishes in washing.
3. Smoothness to withstand friction of machine and hand sewing.
4. Elasticity to provide seams that will not break or pucker.
5. Evenness which permits easy, rapid movement through the eye of the needle under tension.

# 6 CORD SPOOL COTTON

# Good Seed Is Available In Spite Of Conditions Which Affected Growth Last Year

Supplies for the seeding of field crops for 1936 must necessarily be derived largely from 1935 seed crops. The year 1935 was unique as regards conditions affecting the growth and maturity of all kinds of seed crops. Early frost together with adverse climatic conditions over a wide area of the Dominion did heavy damage in Western Canada, and one of the worst epidemics of black stem rust seriously affected grain crops of a large section of Saskatchewan and Manitoba.

To make specific reference to cereal crops, it may be said that in no part of Canada was the oat crop of normal quality. In Western Canada damage to this crop from frost was more severe and covered wider areas than for some years. This applied particularly to the northern parts of all three Prairie Provinces or those districts from which seed supply for the western part of these provinces, as well as other parts of Canada, is usually drawn.

The provinces of Manitoba and Saskatchewan are the principal production sources of barley in Western Canada. Here this crop suffered from rust and excessive rain at harvest time. The seed is therefore light in weight and of poor colour. Barley and oats crops throughout Eastern Canada gave great promise during the early part of the growing season. Unfavourable weather conditions at sowing time, however, affected these crops throughout large parts of the district that the quality of the seed from the standpoint of kernel weight or body of sample is the lowest in some years.

Referring to forage crops, timothy seed was of first importance in 1935 as regards yield, but the quality was somewhat impaired through loss of colour and excessive hulling, the result of rain at harvest time, and over-ripening. Red clover seed production resulted in distinctly qualities of seed, the late crop, which constituted the bulk of the production, being of lower than average quality because of interrupted maturity by frost. Alsike seed was of very small volume, and much below average quality. Alfalfa seed production in 1935 was of negligible proportions. Sweet clover more nearly maintained average quality than that of any other forage crop. However, it must not be inferred that all acute seed shortages are due to such conditions. Much good seed is available, but the usual supply of sound, plump, vital seed of cereals especially was not produced in 1935.

## Newsy Makes Good

Thirteen-Year-Old Winnipeg Boy Singing In Eastern Night Club "Chicklets", the 13-year-old number who regaled travellers last summer on the train from Winnipeg to Grand Beach by singing a song with every sale of peanuts or candy, is hitting the big time. The little curly-haired lad who looks like Freddie Bartholomew is stealing the audience's hearts away with his singing in a Montreal night club.

"Chicklets" left Winnipeg in the fall, and for nearly two months he has been acclaimed as the distinctive headliner in the night club's floor show. Besides his singing he takes part in the dance routine with the chorus.

"Sure, it's better than singing on the train and selling peanuts, but all these Winnipeg people were sure good to me," he said when a reporter recognized him. "I hope to get to New York eventually."

## Privately Owned Property

Sandringham, which will probably be the Queen's country home for her life, is as much a privately owned estate as Balmoral, says the News of the World. The nation does not contribute a penny towards its upkeep. Eight villages lie within its borders, which cover over 15,000 acres.

Special express trains for fruit, flowers and cauliflowers have been placed on railways in Britain.

## Lord Tweedsmuir's Opinion

If Given Working Chance Women Will Make Good

Ever since Boer war days Lord Tweedsmuir has been "a staunch believer in the abilities of women in every walk of life in which they are given anything like a chance."

Speaking in Toronto at the opening of the new Women's College hospital, the governor-general told how he was put in charge of the concentration camps in South Africa into which the Boer women and children were collected from the areas devastated by war.

Two things I learned which I have never forgotten. One was the unassessable value of the hard and self-sacrificing work of doctors and nurses, for we turned these camps in six months from a Lazar house into a health resort. The other was the unassessable value of women's work, for it was the Ladies' Commission, under Dame Millicent Fawcett, which enabled us to turn the tide." The Great War gave a final proof of the value of women's services.

## Not A Modern Product

England Had Hit-And-Run Driver Hundred Years Ago

The hit-and-run driver is not a modern product brought about by fast cars which enable the culprit to get away. Here is an extract from a London, England, newspaper of January 1836, which speaks for itself.

"My attention has just been drawn to report in your journal of an accident in the New Road, caused by the negligence or furious driving of a hack-carriage, and accompanied by loss of life. The driver is stated to have hurried on immediately, with the characteristic brutality of the class to which he belongs, and to have succeeded in making his escape without even the discovery of his number."

Probably there have been hit-and-run drivers ever since the days when man first invented wheels for transportation instead of hauling wagons along on runners.

## The Prince Of Wales

History Shows That The Country Has Been Without A Prince Of Wales For Long Intervals

It is a new thing for this country to be without a Prince of Wales. There was a gap of 21 years between the death of George III. and the birth of the late King Edward in 1841. A shorter interval occurred between the accession of George III. in 1760 and the birth of his son two years later. But the longest hiatus ended with the change of dynasty in 1714, when George I. created his son Prince of Wales ten days after landing. There seems to have been no Prince of Wales since Charles I. came to the throne 89 years before; for there seems to be no record of Charles II. having borne the title. The new hiatus maybe a long one, for the next heirs to the Throne are a brother and his two daughters—London Observer.

## The Secret Of Living

Is Keeping Clear Of Fads And Avoiding Fuss

Sir James Crichton-Browne, "grand old man" of British medicine, gives this formula for longevity: Steer clear of fads.

"Keep busy. Avoid fuss," said Sir James. "People often ask me the secret of living. It isn't a secret as long as you keep clear of fads." Sir James, who once dined with Charles Dickens and is to-day still an indefatigable banquet-goer, thinks the younger generation is a little frivolous, but "sound stuff at heart."

## May Move In June

The king will probably move from St. James' palace to Buckingham palace on June 3, it was understood. The Duke and Duchess of York are expected to move into St. James' palace.

## Winter At Bird Sanctuary

Over 5,000 Geese Stay At Jack Miner's Until Spring

With evergreen trees planted around the ponds of the Jack Miner Bird Sanctuary to break the severe winter winds, and with plenty of corn scattered over the ice-covered ponds, over 5,000 Canada geese have spent the winter at Jack Miner's Bird Sanctuary. These birds came to this place of safety last October, and will stay until the middle of April, with the spring migrants joining them in March.

On interviewing Jack Miner, he said: "By our caring for these 5,000 Canada geese all winter, to go North for the spring and summer nesting season, it means they will increase and come back South with 15,000 or 20,000 in the fall—not to the Jack Miner Bird Sanctuary alone; but the over-flow will spread out over Canada and southern U.S.A. and the hunters and bird lovers of the continent will benefit by the increase; while a limited number will return to this sanctuary for feed and protection next fall and winter here. In other words, this place, as the hunters and bird lovers, will save them from extermination; and individuals and governments will not have to build museums to save specimens because children and future generations will be able to come here and see them alive. And when a child kindles a love in his or her heart for bird life, that child at once becomes a better citizen and has a greater love for his fellowmen."

## Hostess For The King

Four Available If Queen Mary Prefers Not To Act

The Royal Courts which had been fixed for April and June have of course been automatically cancelled. The future brilliancy of his court will not in any way be curtailed by the bachelor estate of King Edward. It is hoped that the Queen Mother will continue to preside over the dignities of Buckingham Palace but if she should prefer not to, the King will have able assistance from the Princess Royal, the Duchess of York, the Duchess of Kent and the Duchess of Gloucester, says the Glasgow Herald.

"What did your son learn at college?"

"Well, he can ask for money in such away that it makes it seem a privilege to give it to him."

## KNIT THIS SIMPLE SET TO DELIGHT A CHILD

Healthy, happy and oh, so proud of her appearance—this little lassie in her hand-knit cap and sweater set! It's just the thing to put a four-to-five year old into the Spring fashion picture along with Mother and Big Sister. Made from a simple Alice Brooks pattern, it works up quick as a cat—the greater part is just plain knitting. You'll want to start it right now, in some bright lovely color—because half the fun is to have it ready for the first play party next summer.

In pattern Y5312 gives detailed instructions for making both cap and sweater in sizes 4, 6 and 8. It includes an illustration of set and stitches used, and gives material requirements. To obtain this pattern send 20 cents in stamps or coin (not preferred) to Household Arts Dept., Winnipeg Newspaper Union, 175 McDermott Ave., Winnipeg.

There is no Alice Brooks pattern book published.

# Canada Has Highest Average In Number Of Telephone Conversations Per Capita

## Anything But Cheap

Motorists In California Pay Plenty For A License

When you are told that license plates for a motor car cost only \$3 in California, you think that it is a pretty cheap fee. But there is more to it than that. It is also necessary to pay a registration charge of \$1.75 for every \$100 valuation of the car. That \$1.75 is the bogey. It makes the total license fee for some of the larger cars exceed fifty dollars annually. That is a heavy sum.

There is a unique way to deal with motorists who are slow in getting their plates. Unless they get under the wire on deadline day, they have to pay double the registration charge and double the fee for licenses, or \$8 for the one and \$3.50 per \$100 valuation for the other.

People in California are kicking strenuously about the high license fees for motor cars. They are also complaining about the high taxes generally. And, many of them realize that still higher taxation is in the offing.

## Will Be Satisfied Now

Artist Likes Circus Music and Builds Portable Calliope

George McFadden, Boston and New York artist and scenic designer, has satisfied his boyhood penchant for circus music by building his own portable calliope.

As he explains it: "I took the inside out of an automatic grand piano. I didn't use the player attachment anyway, and I needed the bellows for my calliope. Then I had to reverse the bellows so they would pull instead of pull."

"I was stumped by the pipes for a while, but I finally figured a way out to get them pitched properly. I just took lengths of brass tubing made the slots in them and then kept shoving a cork down in them until I got the right pitch. Then I cut them and closed the end with a brass plug."

"The air supply was a problem. I had to figure out a way to drive the bellows automatically. I finally hooked up an electric motor in the cellar, and that drove it nicely."

Much has been said and written about the wrong numbers given by telephone operators, but this story has to do with the correct ones. According to telephone statistics released by the Dominion Bureau of Statistics, the number of completed conversations on Canadian telephones during 1934 is estimated at 2,298,507,566, and that is a lot of right numbers. This is an average of 1,925 conversations per telephone, or 212 per capita. No other country has as high an average number of conversations per capita and only the United States and Japan report a greater total number of telephone conversations. Perhaps the reason that Canadians are particularly loquacious over the telephone may be attributed in some measure to the fact that the telephone is a Canadian invention, the world's first telephones having been set up and operated in Canada by Alexander Graham Bell.

The number of telephones in Canada at the close of 1934 amounted to 1,193,729 compared with 1,192,330 in 1933. For each of the years 1931, 1932 and 1933 decreases from the previous year were recorded, and in 1934, while the number of residence telephones continued to decrease, increases in business, rural and public pay telephones were more than sufficient to offset this decrease. With an average of 11.61 telephones per 100 of population, Canada was second only to the United States, where there is an average of 13.29 telephones per 100 of population.

In addition to playing an important part as a medium of communication in the business and social life of the Dominion, the telephone also provided employment to 17,291 persons to whom salaries and wages totalling \$21,167,834 were paid during the year.

## To Protect Aviators

British Rescue Launch Will Patrol Shark-Infested Timor Sea

To take the dread out of the Timor Sea for flyers, a special high-speed rescue launch has left the Southampton yards to operate in those shark-infested, storm-swept waters in conjunction with empire air routes.

Long regarded as the most dangerous section of the England to Australia air route, the Timor Sea will lose much of its dread. The launch has a cruising range of 960 miles. She is capable of high speed and can carry, in emergency, 40 or 50 persons.

For officers and crew there is comfortable accommodation, and the control compartment is like the interior of a sedan car—even to its windshield wiper.

Her wireless transmitting and receiving apparatus has a range of 400 miles.

Apart from her important duties in regard to aircraft, the launch will also be used for pearl fishery protection purposes.

## Teaching By Radio

Recent Experiment In Australia Was Pronounced A Success

The first experiment in Queensland in broadcasting lessons was carried out recently from a Brisbane school by 4QK and 4RK, the Queensland stations of the Australian Broadcasting Commission.

Schools in the districts served by the broadcasts were previously supplied by the department of public instruction with notes on the lessons, and at each school the broadcasting teacher's instruction was followed on a blackboard.

The broadcasts were made with a view to determining the possibility of reaching scholars in the outback and also to provide teachers with an example of methods of presenting lessons. The experiment was regarded as eminently successful.

Dr. A. H. Compton, University of Chicago Nobel Prize winner, went to Vancouver to install a cosmic ray machine on the deck of the S.S. Acarag.

WORLD HAPPENINGS  
BRIEFLY TOLD

Sir Alexander Cadogan, British ambassador to China, was named under-secretary for foreign affairs in orders approved by King Edward VIII.

Roger Mariotti, 45-year-old workman of Montreal, was fatally injured when an icicle weighing about 100 pounds fell from a roof edge and struck him on the head.

British Columbia's extended winter has reduced logging operations in the coast area to 40 per cent. of normal, logging officials at Vancouver said.

Paul Vaillery, French academician and poet, has been appointed president of the permanent committee of arts and letters of the League of Nations.

The German Protestant Church stood shoulder to shoulder with Catholics in the Reich to fight Nazi domination of the education and training of its youth.

Coarse gold—in veins an inch wide—has been discovered in the Flathead district in the extreme south-east of British Columbia, hardy prospectors reported at Cranbrook, B.C.

British authorities denied reports the British government was considering a peace plan with Italy and France by which each of the three countries would receive a part of Ethiopia.

Host to thousands of summer tourists from all parts of Canada and the United States, Fred L. Kolb, manager of the Athabasca hotel at Jasper, Alta., died recently from a heart attack.

## SUNDAY SCHOOL LESSON

MARCH 8

JESUS TEACHES NEIGHBORLIINESS

Golden text: Thou shalt love the Lord thy God with all thy heart, and with all thy soul, and with all thy strength, and with all thy mind; and thy neighbor as thyself. Luke 10:27.

Lesson: Luke 10.

Devotional reading: Matthew 5:38-48.

Explanations and Comments . . .

The Queen of a Lawyer About Securing Eternal Life, Luke 10:25-28. A certain lawyer tested Jesus, tried to trip him, with his question "What shall I do to inherit eternal life?" His was the legalistic point of view, that eternal life would be the reward of special acts. What fasts and prayers and sacrifices, he meant, could he do to win life eternal. "What is the result of your poring over the Law?" Jesus questioned in his turn, and the lawyer quoted in answer Deuteronomy 6:5 and Leviticus 17:18. "Thou shalt love the Lord thy God, and thou shalt love thy neighbor as thyself," said Jesus. The man's knowledge was correct, but what of his putting his knowledge into practice?

The Parable of the Good Samaritan, Luke 10, 29-37. Jesus tried to justify himself, to show that he had not asked a question so simple that it could be quickly disposed of. The man asked "And who is my neighbor?" Before Jesus was through with him, the lawyer had little ground on which to "justify himself" in any respect.

The lawyer expected Jesus to answer that his neighbor was an Israelite. Jesus turned his question around, and answered the much more important question, Whose neighbor am I? by telling the parable which we call the Parable of the Good Samaritan.

The priest and the Levite who came along when the man lay by the roadside whom the thieves had beaten and left there, probably would have gone to his aid had he been one of their own class, but he was only an unknown man who had no claim upon them. From priest and Levite, men who, because of their office and position, were bound to show mercy to any of their own race in need, the wounded man must have expected help. But in all probability, as has been suggested, the priest had just come from ministering in the temple, and felt that it was enough to perform his official duties, those for which he was paid, and that no further obligation rested on him. Priest and Levite passed by on the other side.

Next there came that way a certain Samaritan, one whom Jews despised, and he was moved with compassion for the wounded man. His compassion led him to tend up the man's wounds put him on the beast which he had been riding, and take him to an inn where he cared for him that night.

The first law of reparation—better never than late. 2140

LET QUAKER NATURAL BRAN  
MAKE YOUR Baking MORE DELICIOUS

... MORE ECONOMICAL !

●The finest cooks everywhere have found the spicy, nutty flavour of Quaker Natural Bran makes their biscuits, muffins, cookies, etc. more delicious. They're always sure, too, of their results, because Quaker Natural Bran is especially intended for baking. It mixes quickly with other ingredients and rises lightly.

You can serve healthy bran dishes more often now, because Quaker Natural Bran is so economical. You realize, of course, how healthy bran foods are for your family. Quaker Natural Bran helps to keep them well.

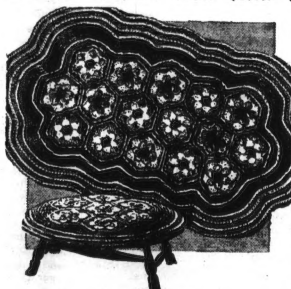

Order some today. Your grocer has it. A folder of delicious bran recipes and a valuable coupon in every package.

Look for the Quaker Natural Bran display of your grocer's. It has a folder of delicious bran recipes and a valuable coupon in every package.

## Crochet That's New And Simple

Household  
Aisle  
Alice  
BrooksSeparate  
Medallions  
in Different  
Colors Form  
Rug  
Footstool  
or Pillow

PATTERN 5544

"Can anyone do it?" Most assuredly, says Alice Brooks, who has designed this lovely rug, a matching foot-stool top and pillow for quick crocheting. Easy, six-sided medallions are done one by one, each flower a different color with background uniform or not, as you please. Sew them together and you're ready to begin the border crochet, going round and round with stripes of color used to break the background. Rug wool, rug or candlewicking may be used.

In pattern 5544 you will find complete instructions for making the rug shown; an illustration of it and of all stitches needed; material requirements; color suggestions.

To obtain this pattern send 20 cents in stamps or coin (cash preferred) to Household Arts Dept., Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg.

There is no Alice Brooks pattern book published

Where operators are concerned, doctors, nurses, actors, clergymen, and persons with artistic temperaments usually are poor patients.

## R.C.M.P. Medals

Eight Veterans Receive Recognition For Long Service

Superintendent T. V. S. Wunsch and Staff Sergeant G. P. Pavey, both of Ottawa, were among eight veterans of the Royal Canadian Mounted Police Force who were presented with long-service medals at a ceremony in the new police headquarters at Edmonton. The decoration signified 20 years or more of service. The other medallions, all Alberta men, were: Inspector P. H. Tucker, Sgt. R. G. B. Johnson and Sgt. A. Ford, Edmonton; Corporal J. H. Corbett, Wainwright; Lance Corporal J. E. Jones, Lamont, and Constable Wm. McKay, Athabasca.

Arterial roads of England may be lighted at night at a cost of \$45,000,000 for lamps and over \$2,000,000 a year for maintenance.

NO MORE  
Stomach Trouble!

Now can eat anything without pain or after effects.

"For a long time I suffered badly from indigestion. I tried many remedies but got worse until I started Fruit-A-tives. Then it was not long before I was entirely well and could eat anything without pain or after effects."—so says Mr. S. Samson, Toronto, Ont.

Fruit-a-tives are a famous doctor's prescription. They contain concentrated extracts of APPLES, ORANGES, FIGS, PRUNES and HERBS. That is why Fruit-a-tives act naturally to bring all the organs of elimination to healthy, normal action . . . why they bring, not temporary, but lasting relief.

FRUIT-A-TIVES  
Nature's Fruits and Herbs

Appleford's

Para-Sani

You'll save its modest cost before half the roll is used. That's because this heavy waxed paper keeps left-overs fresh, moist and flavorful. Ask for Appleford's Para-Sani because of the exclusive knife edge cutter on the box.

## The Latest Invention

Postcards Will Talk When Placed On A Photograph

Talking postcards have been invented by George Harrison of Hampton, England. His new microphone, amplifier and recorder make talking pictures on an ordinary photograph. The film is laid over the photograph which can be sent through the mail and played on a phonograph. The cost of recording a six-inch disc is 25 cents.

## VICKS COUGH DROP

Medicated with ingredients of Vicks VapoRub

## War Produces New Hat

Dashing Headgear Makes Its First Appearance In Paris

Paris has a new hat inspired by the war in Ethiopia. A Bersaglieri hat trimmed with the traditional cock feathers, has made its appearance in the Rue Royale. It was worn by a tall, middle-aged woman, who carried the dashing headgear with great dignity. It is predicted that Bersaglieri hats will be as popular as they were in 1919 when a regiment of Bersaglieri was quartered in Paris.

Now Science Explains  
Why So Many People  
Past 40

Feel That They're Slipping  
Losing Their "Grip" on Things

Many people "round 40 think they're 'growing old.' They feel tired a lot . . . 'weak.' Have headaches, dizziness, stomach upsets.

Well, scientists say the cause of all this, in a great many cases, is simply in acid condition of the stomach. Nothing more.

When you have one of these acid stomach upsets, take Phillips' Milk of Magnesia after meals and before going to bed. That's all!

Try this. Soon you'll feel like another person! Take either the "milk" liquid "PHILLIPS' Milk of Magnesia Tablets, Made in Canada.

ALSO IN TABLET FORM: Phillips' Milk of Magnesia Tablets are now on sale at all drug stores everywhere. Each tiny tablet is the equivalent of a teaspoonful of the "milk" liquid "PHILLIPS' Milk of Magnesia."

PHILLIPS' Milk of Magnesia

## PLAN TO RETIRE PUBLIC DEBTS IS URGED ON HOUSE

Ottawa.—A debt retirement plan involving the Bank of Canada and public credit was outlined to the House of Commons by Walter A. Tucker, Liberal member for Rosetown, Sask. It involved converting Dominion, provincial, municipal and public corporate debt into non-interest-bearing securities over a period of 24 years without cost to the treasury.

The Rosetown member, who has become one of the leading financial reformers of the house in his brief time here outlined his ideas during debate on a motion proposed by M. J. Coldwell (C.C.F., Rosetown-Biggar) to nationalize the Bank of Canada and all chartered banks. The motion was defeated without a recorded division.

Finance Minister Dunning was outspoken in his opposition to nationalizing chartered banks although he said the government has been considering ownership and control of the Bank of Canada. He did not believe it would be in the best interests of Canada to take over the chartered institutions, involving as it would a managing board and widespread bureaucracy.

The duty of parliament, Mr. Dunning said, was to control but not operate business. He was opposed to bureaucracy and insisted parliament could not manage a business without delegating authority to some board or other organization.

The finance minister made no reference to the Tucker debt-retirement plan although he said he was "sitting at the feet of many Gamaliels" without hearing anything new.

The basis of the Tucker plan was the theory chartered banks create credit against government bonds. He said they bought government bonds and then loaned against them to the extent of nine or 10 times their face value.

If the chartered banks could do that, why not the Bank of Canada? Mr. Tucker asked. He would have the Dominion deposit bonds with the bank and secure credit of \$1,000,000 a day, which would be equal to the increase in the public debt over a long period of years.

This credit, which would be without interest or a nominal figure of one per cent, would be used in lieu of bonds which ordinarily would be issued and interest. Dr. Tucker figured the whole public debt could be converted to non-interest securities in 24 years although the same principal would be outstanding.

Based on present-day debt figures, the annual saving in interest charges would be \$370,000,000, Mr. Tucker said. Interest, he contended, was "gnawing into the vitals of the nation," and the Dominion was spending in interest 54 cents out of every dollar of taxation.

### No Canadians Hurt

Cable Received In Ottawa From Minister To Japan

Ottawa.—The department of external affairs disclosed it had received a cable from Sir Herbert Marler, Canadian minister to Japan, reporting no Canadian citizen was injured in fighting that occurred in Tokyo during a military coup there.

The department said Sir Herbert was keeping it informed of developments in Tokyo but declined to make public further contents of his message.

### Nations In Arrears

Ottawa.—The House of Commons was informed 21 nations, members of the League of Nations, were in arrears in their annual payments for upkeep of the league last Sept. 1. The amount of arrears of these nations was 19,247,987.30 gold francs.

### Wants Guarantee Renewed

London.—Usually reliable sources indicated the Belgian government was seeking renewal of British guarantees of the neutrality of that country similar to those existing when the Great War broke out in 1914.

## Relief Camp Policy Changed

Government Hopes To Have Them Closed By Dominion Day

Ottawa.—Closing of relief camps throughout Canada by Dominion Day is the objective of the government, Hon. Norman McLeod Rogers, minister of labor, announced. Present strength of the camps will not be increased. There will be no new admissions.

In a statement to the House of Commons the minister said: Arrangements have been made with the Canadian railways to employ 10,000 men on deferred maintenance work the coming summer.

Men taken from the relief camps by the railways will be on a basis of work and wages.

The additional railway maintenance work will be undertaken by the government and railways on a co-operative basis. An emergency supplementary estimate will be introduced in the house to cover the government's share.

While relief camps remain open, projects will be continued under the department of national defence, working in close co-operation with and carrying out the policy of the labor department.

Co-operation will be encouraged between provinces and Dominion in working out more intensive application of the farm placement scheme.

Allowance of 20 cents a day in the relief camps will be increased to \$15 a month, as from March 1. All other allowances, such as food, clothing, tobacco and medical care will remain the same.

The monthly allowance of \$15 will be paid out as follows: \$7.50 in cash, the other \$7.50 being set aside until such time as the man leaves the camp when he will receive non-negotiable vouchers payable at the rate of \$4 a week at any post office, for the total balance standing to his credit. This ensures that if a man leaves a camp of his own free will, he will at least have some means of support while he is seeking industrial re-establishment.

## Prospectors Report Gold Find

Inch Veins Discovered In Flathead District, B.C.

Cranbrook, B.C.—Coarse gold-in-veins an inch wide has been discovered in the Flathead district in the extreme southeast of British Columbia, hardy prospectors reported here as they hastened into Cranbrook to record their claims.

Despite the extreme cold weather of the last month lively staking activity has been going on in the district for the last 10 days. The scene of the rich find is Grizzly Gulch, a tributary of Akamina Creek. It is in the Rocky Mountain range just north of the international line and just west of the Alberta-British Columbia boundary.

## Danish Aviators Killed

Were Hunting For Non-Existent Pilot In Storm

Copenhagen, Denmark.—Three fliers were killed in an attempt to aid a non-existent pilot.

Sounds heard on the ground led to belief that an aeroplane was seeking a landing in a snow storm and the trio went up in one plane to "escort it to safety."

After several hours authorities concluded the sighting of snow-laden telephone wires in the strong wind caused the sound similar to an aeroplane engine. As word went out to recall the guiding plans the news was received it had crashed.

### Revenue From Wage Tax

Winnipeg.—The Manitoba Government did right well with its two per cent wage tax, this fiscal year, according to reports tabled in the Provincial Legislature. The tax yielded \$1,074,800, \$24,800 more than the government had expected, Hon. E. A. McPherson, provincial treasurer, told the assembly.

### Valuable Coal Production

Edmonton.—Coal valued at \$12,440,616 was produced in Alberta during the calendar year 1934—the last for which reports are complete—it was made known by the report of the provincial department of lands and mines, filed for legislative perusal by Hon. C. C. Ross, M.L.A.

## DOMINION CHEMIST

Clifford H. Robinson, of the Central Experimental Farm, Ottawa, who has been promoted to the position of Dominion Chemist, Dominion Experimental Farms, Dept. of Agriculture. He succeeds Dr. Frank Shutt, who retired in 1933.

## Protest Against Price Boosts

Manitoba Government Asked To Look Into Machinery Costs

Winnipeg.—The Manitoba government was charged to consult with the Dominion administration with a view to bringing the price of agricultural machinery down "to what they were under the Bennett regime."

Quoting from price lists to show that the cost of farm implements was substantially increased this month, A. R. Welch (Cons., Turtle Mountain) said in the provincial legislature it was the duty of Premier Bracken to press upon Ottawa the need of a 20 per cent. reduction in prices.

Mr. Welch cited 11 instances of increased prices, ranging from \$2 to \$42 effective February 1 on binders, seed drills, harrows and other machinery.

Douglas Campbell, Progressive member for Lakeside, also complained of higher prices for farm machinery. He stated that the Canadian-American trade agreement had resulted in lower prices for livestock and higher prices for farm machinery.

## Personnel Has Been Chosen

Royal Commission Will Investigate Penitentiary System In Canada

Ottawa.—Personnel of the royal commission which will investigate Canada's penitentiary system has been practically completed.

It is understood the body will be a three- or five-man commission, probably the latter, and the terms of reference will call for an exhaustive study of conditions in all Canadian penitentiaries with evidence taken at each institution.

## Poverty Among Indians

Parliament Is Told One-Third Are On Relief

Ottawa.—Administration of the affairs of Canada's 112,000 Indians is causing some concern, the House of Commons learned when estimates for the Indian department aggregating \$4,241,000 were under consideration.

Hon. T. A. Crerar, superintendent-general of Indian affairs, said the Indian population was increasing and that approximately one-third of it was now on relief.

The increasing expenditures on Indian administration demanded attention of public authorities. From the superficial study he had been able to make since coming to the department he believed some improvements might be made. If this proved to be the case he hoped to be able to make certain proposals before another session of parliament.

The great problems of the department were to improve the situation of the Indians to educate them, to make them self-supporting and to bring them to a greater knowledge of the methods of the white man. He thought the government had not been as wise as it might have been in the latter regard.

Conservative leader Bennett said the fact the Indian population was increasing showed it was well cared for on the whole, although acute distress was often reported from some places.

Answering questions from members, Mr. Crerar said the problem of tuberculosis was a serious one. Segregation of tuberculous pupils in Indian schools was now engaging his attention.

## Edmonton Leads Province

Has Settled Most Families Under Farm Relief Scheme

Edmonton.—Edmonton led the way in number of families settled under the \$600 farm relief settlement scheme, to which the city, province and Dominion were parties, according to the annual report of this branch of the department of agriculture.

Since 1932, there have been 295 families sent out from Edmonton, 184 from Calgary, 38 from Medicine Hat, 16 from Lethbridge, four from Wetaskiwin, besides the following: Towns, seven; villages, eight; rural municipal districts, 52; local improvement districts, 16; Turner Valley district, 22.

### German Aviators Jailed

Praha, Czechoslovakia.—Six German army aviators from the Kottbus regiment were sentenced to eight days in jail at Kretitz, on the German border. The soldiers, arrested there in two automobiles, said they crossed the border during a fog without knowing it but the judge would not accept their story.

## UNUSUAL SWEDISH CRUISER VISITS ENGLAND

The arrival at Gravesend, England, of the Swedish ship "Gotland," caused a good deal of excitement among the local inhabitants. The "Gotland" is a combined cruiser and seaplane-carrier with a displacement of 5,600 tons. She carries six 8-inch guns, six 21-inch torpedo tubes, and eight seaplanes. Our picture shows her at the "Gotland" with some of the seaplanes on the deck.

## JAPAN LEADERS KILLED IN REVOLT BY WAR PARTY

Tokyo.—Three of Japan's most distinguished leaders were assassinated in a snow storm by young army officers who said they wished "to remove corrupt influences from around the throne."

They killed the Liberal premier, Keisuke Okada, the lord keeper of the privy seal and former premier, Admiral Viscount Makoto Saito, and the chief of military education, Gen. Jotaro Watanabe.

They wounded Korekiyo Takahashi, minister of finance, and Admiral Kantaro Suzuki, lord chamberlain of the imperial court. (A son in New York received a cable from his brother, saying their father, Takahashi, was dead.)

They killed and wounded several lesser personages, together with policemen, body guards and personal servants in their sudden attempt at a coup d'état.

Emperor Hirohito and high Japanese officials conferred at the imperial palace in an endeavor to settle without further bloodshed the military uprising which took the lives of three government heads.

Military officials, royal princes, members of the privy council and survivors of the former cabinet of assassinated Premier Okada attended the conference.

Meanwhile rebel soldiers were reported still holding public buildings. They refused orders to evacuate the buildings, indicating they would do so only after formation of a government acceptable to the militarists.

Efforts to form a stop-gap Japanese government failed in the wake of a bloody militarist purge of liberal older statesmen.

While martial law was in force in Tokyo and troops guarded the imperial palace, Fumio Goto, commissioned by Emperor Hirohito to form a cabinet, resigned within a few hours.

Every major world power watched the developing situation with anxiety, as also did ancient China.

The Japanese government claimed the situation was under control, but two fleets were called in from the high seas for duty in Tokyo and Osaka. Martial law was proclaimed many hours after the revolt broke out.

## Would Let League Decide

France Willing To Have Ruling On Pact With Soviet Union

Paris.—France stands ready to go before the world court with Germany to decide whether the Franco-Soviet mutual assistance pact violates the Locarno treaties, Foreign Minister Pierre-Etienne Flandin told the chamber of deputies.

M. Flandin made the offer in the course of his first important chamber speech, urging ratification of the pact with the Soviet Union as a necessary step in the creation of collective security.

He denied the pact could be interpreted as a military alliance, adding, however, that governments naturally discuss military conditions under which they would exchange assistance.

"We would be unjust to forget that Russian arms contributed to the victory of the Marne," he told the deputies.

## Choosing Air Mail Bases

Test Flights Over Proposed Routes Will Be Made

Ottawa.—Test flights over the various proposed routes for a north Atlantic air mail service will determine the bases to be established on this side of the Atlantic, a delegation from Sydney was told by officials of the post office department.

Tests of the north Atlantic route will be carried out in the next two years, using the various proposed routes linking the United States with England by way of Newfoundland and some point on the Canadian Atlantic seaboard.

## CANADIANS ARE LARGE CONSUMERS.

Altho Canada has a relatively small non-agricultural population for the absorption of surplus production, approximately 85 per cent of the agricultural production in Canada is consumed in Canada, with the remaining 15 p.c. finding markets abroad, according to the Wheat Pool "Budget."

## TO ENCOURAGE THE CONSUMPTION OF WHEAT.

For the purpose of increasing the per capita consumption of wheat in the United States by improving the quality of flour and bread sold to domestic consumers, the Northwestern Miller suggests that low-grade flour should be taxed in order that the sale of higher grades or patent flours should be encouraged. This scheme would force low-grade flours into export channels it is contended and the scheme would increase the amount of wheat required for flour making from 450,000,000 to 550,000,000 bu. annually. By this method, together with the 42c duty on imports, United States prices could be maintained at a figure substantially above world price levels.

## A GIFT TO POSTERITY.

Reports heard from book publishers indicate an increasing public interest in the general fields of history and biography, and there are many publishing houses to supply the demand. But there is one particular field in which one company will always have a monopoly. That field is community history, and the company is the publisher of the community newspaper.

The reader who wants more light on any particular period of history can find perhaps a dozen books dealing with the men and events of that era. But if he wants a history of his own community, a history in which he feels a social interest because he knows the actors in it, he can turn to but one source—the home-town newspaper.

## DEBT REVISIONS.

(From "The Agricultural Situation and Outlook, 1936." Published by authority of Hon J G Gardiner, Minister of Agriculture, and H W D Euler, Minister of Trade and Commerce, Ottawa.)

Under provisions of the Farmers' Creditors' Arrangement Act passed at the 1934 session of the Dominion Parliament, it became possible for farmers unable to meet their liabilities, to submit proposals designed to alleviate debt burdens. At October 1, 1935, approximately 90,000 farmers had interviewed Official Receivers with a view to submission of proposals, and nearly 16,000 farmers had actually made submissions, with the result that at that date 10,625 final settlements had been effected. The total debt of farmers represented by proposals submitted is in excess of \$70,000,000. The reductions effected in these debts as a result of meetings of creditors and decisions by the boards of review approximate the sum of \$12,000,000.

It is of interest also that the province of Ontario has further reduced the rate of interest on agricultural loans outstanding from 5 p.c. to 4 p.c. during 1935. Further reductions in interest and principal have been effected thru private negotiations between agricultural debtors and creditors. It is not possible to estimate the extent of such reductions, but they are believed to be substantial.

## STONY PLAIN SUN.

Published Every Thursday at The Sun Office, Stony Plain.

Thursday, March 5, 1936.

### Advertising Rates:

Display, 40 cents per column inch plate, 25c per column inch. Readers in Locals, 15c line. Legal and Municipal Notices, etc. 15c line first insertion; 10c line each subsequent insertion.

### Not Taking Chances.

(Edmonton Journal.)

Pledging its Alberta customers to pay their bills in currency, a large eastern wholesale house is making certain that it will be protected against Alberta Social Credit Certificates if these are put into circulation. This eastern firm now sends out its invoices to Alberta customers in duplicate, stamped with the following undertaking:

"We hereby undertake to provide payment for the undernoted goods in funds convertible at par only in currencies of Bank of Canada or chartered banks of the Dominion of Canada." Then, there is space for the merchant's signature.

Upon receiving the goods, the merchant is required to sign the undertaking and return it to the wholesale house.

other skin afflictions? For quick and happy  
relief use pure, cooling, soothing, liquid  
D.D.D. Prescription. It gently dissolves the  
irritated and inflamed skin, thus ending  
nature itself to heal the itchy skin. No  
—no mess. Clear, soothing and soothing  
—dries up almost immediately. Stops the  
most intense itching instantly. A 50c tin  
bottle, at drug stores, will prove it  
money back. D. D. D. Prescription is  
made by the owners of 1234567890.

## FLEMING'S FOLLY

— BY —  
LAWRENCE A. KEATING

CHAPTER VIII.—Continued

He started after. "Aw, Helen! It's  
only that I feel bad about you going  
busted on Fleming's fool idea. I'll  
come along and carry your things.  
Say, I always had a weakness for  
yuh, and that's why I'm afraid about  
this crazy water scheme."

"I need salt," she mused, "and  
some canned goods. You may carry  
them if you'd really like to." She  
tripped into the odorous general store  
with Roper at her heels.

Down the street Sheriff Stephen  
fingered grayish stubble on his chin.  
"If Buzz Hamilton turns over a new  
leaf, it'll shore 'prise me. You're tak-  
ing a big responsibility, Link, gettin'  
him paroled to yuh."

"Maybe I am. But it's going to  
please Helen a lot. Always makes  
her feel bad to think of Buzz in  
prison."

"Huh! Tried to kill yuh, didn't  
he? Buzz was always wild ar  
scarcely ever without too many  
drinks under his belt."

"True. But perhaps six months  
behind stone walls have taught him  
a lesson. Anyhow," the rancher went  
on as he glanced about for Helen,  
"don't mention that he's due on the  
stage to-day. I want to make it a  
surprise. Goah, if you were a girl  
and your brother was in prison, I  
reckon you'd feel good to have him  
paroled, eh?"

Anes grunted, unable to picture  
himself as a girl. "Buzz is no good  
even if he is her brother, even if  
Jim Hamilton was about as square a  
guy as this county ever saw. No,  
sir, Buzz is just natchrally weak, al-  
ways was an' always will be."

Fleming grinned indulgently and,  
nighing his partner in the Silver  
Creek Dam project, started down the  
sidewalk toward her. Kilgo followed  
from the general store carrying the  
girl's purchases.

"Show them in my saddlebag, will  
you please, Roper?" she asked over  
her shoulder. "Link and I have to  
see Otto Pieper."

Their eyes met and they smiled.  
Fleming's look, however, changed to  
solic concern as they approached  
the door of the Stockmen's Bank. "If  
we don't talk Otto into this loan it's  
going to be hard to keep the boys  
workin' on the dam. We're behind  
with their wages now. I'm afraid  
to ask more'n eight hundred. Smile  
a few times extra, will you?"

He sighed. "It Otto says no, we're  
busted—sky high and permanent!"

Damp and gloomy, the bank in-  
terior lay in silence but for the de-  
liberate ticking of a clock on the  
wall. No one was in the place, save  
Jimmy Farlane, the clerk, bent in-  
dustriously over a huge ledger, and  
Pieper himself, seated at an oak  
desk in the rear. His sharp, weazen-  
ed scrutiny lifted from a mass of  
papers as they approached, and his  
not of welcome was curt and busi-  
ness-like.

"It's you two, eh?"  
Helen's heart throbbed faster. "Mr.  
Pieper," she announced, "we're here  
on a matter that means profits for  
your stockholders."

His small, deep-set eyes appraised  
her shrewdly. "I suppose that fool  
irrigation scheme o' yours is out of  
cash again. Well, I don't see how I  
can do anything about it."

Link looked his somber before  
the banker and leaned forward,  
hands on the desk. "Otto, we'll let  
you off easy to-day," he grinned.  
"All we need is eight hundred dol-  
lars."

The other stiffened. "Do you think  
this is the United States mint?  
Eight hundred dollars?" he repeated.  
"On what security, young fellow?"

Helen and Link exchanged looks.  
"Well," he answered, staring at the  
back of his hand, "we thought may-  
be second mortgage."

Pieper lifted an accusing fore-  
finger. "You know very well I  
turned you down twice on a second  
mortgage on either your property or  
Helen's. Not worth enough. This  
bank will take no such risk while  
I'm president!"

"Don't get mad, Otto. I—"

"Let's waste no more time; I'm  
very busy to-day." And the wiry  
banker buried himself with papers  
on his desk.

## ALL the Benefits of Cod Liver Oil WITHOUT the Taste

The strength giving Vitamins  
A and D together with the  
bone and body-building Hy-  
pophosphites of Lime  
Soda are happily combined  
in Scott's Emulsion, the easily  
digested Cod Liver Oil.  
To help build up resistance  
against colds and other dis-  
eases, to help build strong  
straight bones and sound  
teeth, take

## SCOTT'S EMULSION

THE DIGESTIBLE COD LIVER  
OIL WITH THE PLUS VALUES  
For Sale by YOUR DRUGGIST

Helen's heart sank. Fleming looked  
at her, then moistened his lips.  
"If you don't care about a second  
mortgage, maybe we could fix up  
some kind of note. I'd like to keep  
business at home, rather'n take it  
over to that new bank at Atlas."

Pieper sighed like a man resigned  
to wasting a half hour. "What's  
the money for? Throwin' away on  
that day-dream of yours?" His  
thin, rangy tones carried through  
the silent bank, and Helen saw the  
clerk pause in his work to listen.

"I tell you," the man went on,  
drumming skinny fingers on his desk,  
"it's nothing but sheer foolishness.  
Trying to make hundred-dollar an-  
nuity hand out of old sand that isn't  
worth fifty cents! I've warned you,  
Fleming, time and again. You too,  
Helen Hamilton, and if your father  
was here he'd turn you over his  
knee. He'd paddle you where it  
happens the worst effect. Mighty good  
thing, too!"

Blushing, she shifted uncomfort-  
ably at knowledge that Link was  
grinning.

"How about the eight hundred?"  
"I can't tie up money in frozen  
assets!"

"Why, eight hundred's a trifle,  
and you know it. Otto," he added.

## School Absences Due to Colds Cut Almost One-Half

Famous Colds-Control Plan  
Tested in Three Series of  
Clinics Among 5,118  
School Children

THEIR PROVED IN HOME USE

School absences due to colds  
have been reduced nearly one-half  
(40.2%) by following Vicks Vapo-  
rol for Better Control of Colds. This  
is shown in records of clinics among  
5,118 school children.

Mothers and teachers alike wel-  
come Vicks Plan as a practical guide  
to fewer and shorter colds. This com-  
mon sense, medically sound Plan is  
based on three simple steps:

1. To Help Build Resistance to Colds  
Live normally—avoid excesses. Eat  
simple food and keep elimination regu-  
lar. Drink plenty of water. Take  
sunlight and exercise daily—outdoors  
preferably. Get plenty of rest and sleep.

2. To Help Prevent Many Colds  
At the first warning of nasal irritation,  
sniffle or sneeze, use Vicks Vapo-  
rol—just a few drops up each nostril.  
Vapo-rol is especially designed for  
the nose and upper throat—where  
most colds start. Used in time, Vapo-  
rol helps to prevent many colds—  
and to throw off head colds in the  
early stages.

3. To Help End a Cold Sooner  
If a cold has developed, or strikes  
without warning, rub Vapo-rol  
and chest at bedtime with Vicks Vapo-  
rol. Vapo-rol acts two ways at  
once: (1) By stimulating through the  
skin, like a poultice or plaster; (2)  
By inhalation of its penetrating medi-  
cated vapors, direct to inflamed sin-  
us passages. Through the night, this  
combined vapor-poultice action loos-  
ens phlegm, soothes irritation, helps  
break congestion.

What Vicks Plan can do for others  
has been indicated not only in clinics,  
but also in the further proof of every-  
day home use by thousands. What it  
can do for you and your family can  
be proved only by trying it. Direc-  
tions for following the Vicks Plan come  
in each package of Vicks Vapo-rol and  
Vicks Vapo-rol.

persuasive, "we might be here ask-  
ing twice as much, but we decided  
to get along somehow. Trouble is,  
the heavy rains lately force us to  
work faster, hire more men to get  
the dam completed."

"But, it's going to be wonderful!"  
he hurried on as the other parted  
his lips to speak. "We'll raise four  
crops of alfalfa a year, think of it!  
Anything'll grow there, Otto—small  
grains too!"

(To Be Continued)

## Little Helps For This Week

The Lord thy God shall bless thee  
in all thy works, and in all that thou  
puttest thy hand to do. Deut. 15:10.

My place of lowly service too,  
Beneath Thy sheltering wings I  
see;  
For all the work I have to do  
Is done through sheltering rest  
in Thee.

I think I find most help in trying  
to look on all interruptions and  
hindrances to work that one has  
planned out for oneself as discipline  
trials sent by God to help us against  
getting selfish over our work. Then  
one could feel that perhaps one's  
true work, work for God, consists in  
doing some trifling thing that has  
been thrown into the way. It is not  
waste of time as we are apt to  
think, but it is the most important  
work of the day, the part one can  
best offer to God. After such a  
hindrance do not rush after the  
planned work, trust that the time  
to finish it will be given sometime,  
and keep a quiet heart about it—  
A. Kearny.

## Takes Money To Eat

Exchange Regulations in Russia  
Boost Price Of Food

New Soviet exchange regulations  
have gone into effect which indicate  
that the rub of bright young things  
to Moscow next summer may be  
somewhat abated; that is, if the  
B.Y.T.'s still remember that even in  
Russia it takes money to eat.

Under the new rules, here are  
some price equivalents at the Intour-  
ist restaurant in Moscow as reported  
by the New York Herald Tribune:

Smoked salmon (slice)... \$1.40  
Boiled ham (with salad)... 2.40  
Vegetable salad... 1.60  
Swiss cheese (with salad)... 1.10

In grocery stores white bread will  
sell at 60 cents a loaf.

Some of the grand ducks who  
have been running Russian restaur-  
ants in this country must have  
smoked back home with their price  
lists.—New York Post.

## Weigh Cosmic Rays

Photographic Scales Show Them Less  
Massive Than Supposed

A photographic scale which  
weighs cosmic rays was described to  
the American Physical Society at  
New York by Dr. W. P. C. Swan,  
director of the Bartol Institute,  
Philadelphia.

The scales showed the weights of  
the rays at the earth's surface.  
Those which pierce the human body  
at the rate of dozens a minute, are  
far less massive than has been sup-  
posed.

The weighing process contradicts  
the evidence set up by Dr. Arthur  
H. Compton of the University of  
Chicago, that most of the rays at  
sea level are protons.

The scales show that instead they are nearly  
all electrons, less than 10 per cent.  
being protons.

## Anti-Aircraft Guns

Swedish Invention Can Deliver Bul-  
lets At Rate Of Two A Second

A Second  
Bofors, Sweden's great munition  
plant, has delivered to the Swedish  
navy a new designed anti-aircraft  
gun, capable of maintaining uninter-  
rupted fire, the newspaper Svenska  
Enlightened declared.

The new Bofors gun has a ca-  
pacity of 120 rounds per minute and  
can be fired while the ammunition  
belt is being changed, the news-  
paper said.

The newspaper also said the Bofors  
new machine-gun can fire 130  
bullets per minute.

Eskimos in the Arctic are now  
busy trapping white foxes.

## Find Out

From Your Doctor  
if the "Pain" Remedy  
You Take Is Safe.

Don't Entrust Your  
Own or Your Family's  
Well-Being to Unknown  
Preparations

BEFORE you take any prepara-  
tion you don't know all about,  
for the relief of headaches; or the  
pains of rheumatism, neuritis or  
neuralgia, ask your doctor what he  
thinks about it—in comparison  
with "Aspirin."

We say this because, before the  
discovery of "Aspirin," most so-  
called "pain" remedies were  
advised against by physicians as being  
bad for the stomach; or, often, for  
the heart. And the discovery of  
"Aspirin" largely changed medical  
practice.

Countless thousands of people  
who have taken "Aspirin" year in  
and out without ill effect, have  
proved that the medical findings  
about its safety were correct.

Remember this: "Aspirin" is  
rated among the fastest methods yet  
discovered for the relief of headaches  
and all common pains—and safe  
for the average person to take  
regularly.

"Aspirin" Tablets are made in  
Canada. "Aspirin" is the registered  
trademark of the Bayer Company,  
Limited. Look for the name Bayer  
in the form of a cross on every tablet.

### A Long-Lived Race

Inhabitants Of Eastern Shores Of  
Black Sea Live To Great Age

The government of Abkhazian, a  
Soviet republic on the eastern shores  
of the Black sea, has started an in-  
vestigation to find out why many of  
its citizens reportedly live to be more  
than 100 years old. The republic of  
Abkhazian is a small mountainous  
territory whose population is made  
up largely of farmers and sheep-  
raisers. One of its citizens, Adelia  
Mazhava, was reported to have  
reached 150 years of age in posses-  
sion of good health, good memory  
and excellent sight.

## Obituary.

The funeral of Gilbert Ohlsen of Duffield, who passed away at his home on Tuesday, February 18, was held on Friday afternoon at 2 o'clock from the Reformed Church at Mowasin. Rev L G Sieber, pastor of Stony Plain United Church, officiated.

Interment was made in Mewasin cemetery, beside his late wife, who died 8 years ago.

Mr Ohlsen was 81 years old and had been a resident at Mowasin and Duffield since 1913. He was born in Norway; came to Quebec in 1882, and to live in Calgary in 1900.

He is survived by his son Olaf Ohlsen; 1 daughter, Mrs G W Atkins; 3 grandchildren, R C Ohlsen and L O Ohlsen, all of Duffield, and Mrs S R Hetman, Vancouver, B.C.

John Armbruster had charge of the funeral arrangements.

The death occurred Saturday, Feb. 29, of Mrs Anne Mickelson, relict of the late K Mickelson. Deceased was aged 78 years, having been born at Sparbu, Norway, on May 27, 1857, and came to this country from Minnesota, U.S.A., with her husband, in 1894, and settled in Bright Bank, where she had resided up to the time of her death.

The funeral service was conducted by the Rev H Fry, pastor of the Lutheran church at Inga. The husband of deceased had passed away on Feb. 18, 1933.

Deceased is survived by 2 sons, Mike and Oscar, and 6 grandchildren.

John Armbruster had charge of the funeral arrangements.

## The One Big Show.

The mild weather Tuesday brought out a good-sized crowd to the demonstration held by the Massey-Harris Co. The film "Modern Engineering Transforms Farm Machinery" proved to be highly pleasing and was watched intently by the audience. The slogan "Be sure to bring the boys" was lived up to by farmers of the district, and junior farmers were much in evidence in the gathering. The reels shown of the International Plowing Match was something new here. The prize given to the holder of the lucky ticket was awarded to

The new tractor models and the I-way disc were given the once-over by the practical farmers.

Sommerfeld & Mayer are to be congratulated on the results achieved by this splendid show.

## In the Legislature on Monday

Caecting two entirely new taxes—a Social Service Tax and a Sales Tax; substantially increasing the Income Tax; abolishing the Supplementary Revenue and the Wild Lands taxes; and forecasting a Governmental appeal to the bondholders to accept a lower rate of interest on Alberta securities, one of the most important budgets in the history of Alberta, the first to be brought in anywhere in the world by a Social Credit Government, was placed before the Alberta Legislature on Monday last by Hon. Chas. Cockroft, Provincial Treasurer.

## Stony Plain and District.

Mr. J. B. Walker has taken up his residence in Edmonton.

Mr. Michael was down to business on Monday, after being confined to his home for a short spell thru illness.

Some amateur burglar tried to break into Hil's Home of the Hamburger on Main St. during the early hours of Tuesday morning.

The game Sunday at the local rink resulted: Fort Saskatchewan 3; Stony 1. Eddie Endera refereed.

## Equal Treatment to All.

Now that the Dominion Government has decided to apply the principle of a minimum price to a portion of the wheat crop of 1930-31, the principal should be extended

R. S. LAW,

President of United Grain Growers Limited.

to all farmers who sold wheat during that year, according to a statement made by Mr. R. S. Law, President of United Grain Growers Limited, last week. Mr. Law's statement was as follows:

"According to an announcement which has been made at Ottawa, the Dominion Government has decided to apply the principle of a minimum price to a portion of the wheat crop of 1930-31 and give to a portion of the farmers who sold wheat that year the benefit of a minimum price of 6s a bu. United Grain Growers has decided to call to the attention of the Government the desirability of extending equal treatment to all wheat growers and of applying the minimum price principle to all the wheat crop of that year. That would mean giving to those farmers who sold their wheat on the open market those months when the price ranged between 50c and 60c a bu. the minimum price of 60c. Customers of this Company who are in that position look to us to make representation on their behalf to the Government, and a number of them have already called on us to do so. Undoubtedly the feeling will be very strong that there should be no discrimination and that the equality of treatment should be provided."

## Provost Seeks Impatient.

(Edmonton Bulletin.)

Demanding that the Provincial Government "cable to Major Douglas to come to Alberta immediately, on his own terms, to initiate Social Credit," the Provost Social Credit group is pressing for immediate action to get dividends under way in accordance with the pre-election promises of Premier Aberhart. "Wholehearted" support was offered the Premier if he sent the cable, and he was also promised the support of the Provost Group if he refused to accept terms of the proposed loan council agreement.

In the resolution which has been sent to Premier Aberhart, Major Douglas and "as many othersocial credit groups it is possible to contact," the Provost Social point out that the Government has been in power for over 6 months but that "the presence" of Major Douglas has not yet been secured. They also state that "we believe an attempt to balance the budget at present will necessarily mean a reduction in purchasing power and living standards and will consequently entail additional suffering."

## Here and There

Vancouver is holding this year the Golden Jubilee celebration of its founding in 1886. Some of the features planned include sports events of all kinds, music, pageants, a special performance of Shakespeare's "Mid-summer Night's Dream" in Stanley Park, a performance of Hiawatha, an Indian village, a Hawaiian village, special decorations and illuminations all over Vancouver. Celebrations will reach their peak in the first ten days of July.

At the annual Burns dinner held at the Empress Hotel, Victoria in February at which over 200 Burns lovers took part, the royal Scotch haggis was brought over from Vancouver and was carried in steaming hot on a silver platter by Miss Owen Dewart and piped around the Empress dining room by Pipe-major Donald Cameron. Greetings were received from South Africa, Australia, the United States and London, England.

Stating emphatically that success depends on luck, Captain Charles M. Hudson, D.S.O. and Bar, R.N.R., commander of Q-boat for two years of the war, had a hard job convincing the Active Club International at Hotel Vancouver recently of the entire truth of the statement. They thought that skill, courage and foresight had something to do with success after hearing some of his adventures.

Recently the Royal York Hotel, Toronto held a "Cherry Pie Contest" wide open to everybody and gave ten prizes in order of merit and the good housewives of the Queen City were all agog. The judges of course had their work cut out for them—or may be they did a bit of cutting for themselves.

"It is a pity every British Columbia business man can not find it possible to visit the Far East, particularly Japan," said C. A. Cotterell, assistant general manager, British Columbia, for the Canadian Pacific Railway, just back from a trip to the Orient. Mr. Cotterell thought a visit would be an education, enlightening and of inestimable value in a practical sense.

Two prominent British residents in Kobe are fighting a losing battle against a sacred pine tree which they fear is about to fall on their business, according to passengers arriving in Victoria recently on the Empress of Japan. They can't get it felled because it is believed if that is done, a pestilence will strike the district.

"The Canadian Pacific's biggest liner, the 42,500-ton Empress of Britain, to be designated 'cabin ship' following the abolition of 'first class' designation by the North Atlantic Conference, will continue in operation as a high class, high speed, de luxe liner," William Baldr, steamship passenger traffic manager of the Canadian Pacific, said recently.

At one end of the Dominion the Eastern International Dog Sled Derby at Quebec, Feb. 20-22 hit the high spots in winter sport class at the other and was the Empress Golf Tournament at Victoria, February 17-22, both sponsored by the Canadian Pacific Railway and each showing the versatility of the Canadian climate, since both were indubitably and entirely successful.

SHING has reached unprecedented levels this winter with an average of 5,000 skiers taking weekend trips from Montreal to nearby mountain resorts all season and with similar figures visible from all over the Dominion.
